

TECHNICAL DATA SHEET

ART. 057

Wood

DIMENSION

135mm

DESCRIPTION:

Spring Bolt

FINISHING:

Galvanized Steel

CATEGORY:

Bolts

MATERIAL:

Body: Steel (DD11)

Bar: Galvanized Steel (Fe37)

Spring: Special Hardened Steel

Knob: Steel (4.8)

Bolt with spring, suitable to be screwed on wooden and metal surfaces. To be used in order to lock small door leaves and small gates.

The functioning is assured by operating on the bar: the spring brings the bolt always in closed position if not positioned manually on the opened position.

The performances are intended for products correctly positioned, fixed, aligned and maintained in relation to the use, the positioning and the environmental conditions. The following factors can affect very much durability, performances and safety:

- The positioning and the alignment on an adequate support
- The correct mounting (screwing or welding) and regulation
- The regular lubrication, cleaning and maintenance (avoiding dirt, dust, rust, etc..)

I.B.F.M. suggest normal scheduled inspection, cleaning and maintenance of the products or eventually their substitution if damaged.

All the declared characteristics and performances refer to a product correctly installed by qualified personnel and regularly inspected, maintained and lubricated. I.B.F.M. declines any liability for even partial modifications to the product.
